

Endometrial sampling

RAMPIPELLA

Device for endometrial sampling (mucus - sperm)

For endometrial cytologic aspiration and sperm sampling in post-coital tests. It allows a painless and easy routine screening of the endometrium avoiding uterus neck dilation or traction. A plunger slides into an outer sheath with 1 or 2 side ports placed on the tip. The cannula is graduated from 1 to 7 cm (1 cm resolution).

| Cod. | Descrizione - Description |
|--------|---|
| 720196 | - length 24.5 cm Ø - O.D. 3.0 mm - with 1 port |
| 720218 | - length 24.5 cm Ø - O.D. 3.0 mm - with 2 ports |

100 pcs. per box.
Supplied in single pouch, single use, EtO sterilized and CE marked.

ENDOCIC

Endometrial sampler (mucus - sperm) with steel plunger

For endometrial cytologic sampling. Its very thin design is indicated for stenotic uterus and menopause women. It allows a painless and easy routine screening of the endometrium avoiding uterus neck dilation or traction. A steel plunger slides into an outer plastic sheath with 1 side port on the tip. A measurement scale placed on the sheath ranges from 1 to 12 cm (1 cm resolution).

| Cod. | Descrizione - Description |
|--------|----------------------------------|
| 720195 | - length 28.5 cm Ø - O.D. 2.4 mm |

25 pcs. per box.
Supplied in single pouch, single use, EtO sterilized and CE marked.
